

Re: Potential LEED v4 credits for projects using Floorworks® by Mats Inc.

To whom it may concern:

Many finishing products have the potential to contribute points to LEED v4, however the credits can only be gained when calculating the combined performance of all the products used on a particular LEED project; therefore no single product can guarantee you will obtain LEED v4 credits.

The LEED v4 rating system promotes improved practices in the following credit categories:

- Location & Transportation
- Sustainable Sites
- Water Efficiency
- Energy & Atmosphere
- Materials & Resources
- Indoor Environmental

I am delighted to confirm that Floorworks® may contribute to the following LEED credits (points), the following is based on LEED NCv4:

- v4 MRp2: Material and Resources – Construction and demolition waste management planning:
 - The tiles or planks reduce waste from the installation process, reducing waste in landfills.
 - Made from recyclable material and / or is a reusable product, reducing waste in landfills.
- v4 MRc1: Material and Resources – Building life-cycle impact reduction:
 - Option 3. Building and material reuse. This product can be reused or salvaged from off-site or on-site as a percentage of the surface area. Note: Materials contributing toward this credit may not contribute toward MRc3.
- v4 MRc2: Material and Resources – Building product disclosure and optimization, environmental product declarations:
 - Option 1. Environmental product declaration (EPD) is available.
- v4 MRc3: Material and Resources – Building product disclosure and optimization, sourcing of raw materials:
 - Option 2. Sourcing of raw materials.
 - Recycled content. Recycled content is 28% preconsumer.
- v4 EQc2: Indoor Environmental Quality – Low emitting materials:
 - Option 1 (Flooring). General emissions evaluation. Verified third party FloorScore® certificate is available.
 - Option1 (Adhesives). Verified third party FloorScore® certificates for MI Perma-Bond and MI Release-Bond are available.
 - Option 2. Budget Calculation Method.

If you require any further information, please do not hesitate to contact us.

Sincerely,

Kevin Phillips
