- Common Uses– corporate offices, daycare centers, educational facilities, hospitals, hotels, medical offices, retail

SPECIFICATIONS

- Material: Heterogeneous commercial floor covering consisting of bio-polyurethane, glass fiber reinforcement, paper print layer, and PU top layer
- Backing: FleeceTEC System®
- Weight: 0.74 lbs/sq ft
- Thickness: 2.5 mm
- Sizes: 6’7” x 65’7”

POSSIBLE LEED V4 CREDITS

Please see the Mats Inc. website for the most up-to-date LEED v4 information.

total height 2.5 mm

ecuran is made with bio-polyurethane manufactured with plant-based oils and mineral components.

DESIGNED BY NATURE. REFINED BY SCIENCE. FLOORING REINVENTED.

WINEO PURline is an entirely new class of flooring produced with natural raw materials.
WINEO PURline is made with bio-polyurethane using plant-based oils and naturally occurring mineral components.
The ingredients are molecularly transformed to create extremely dense polyurethane and a tenaciously durable, nonporous floor covering.

Canola oil from rappa seed
Castor oil from castor seed
Chalk

Pu top layer
Decor paper
Glass fiber reinforcement
Pu base layer
FleeceTEC System®

WINEO PURLINE FUSION

wineo PURline FUSION is a design-focused bio-polyurethane flooring that acts as a matrix for selecting just the right shade of gray. From light and airy to rich and welcoming, the sixteen shades of gray cascade from light to dark and cool to warm. PURline FUSION is available in rolls or tiles with a subtle pattern or bold ornaments or flowers motif.

USEFUL, BEAUTIFUL, AND ENVIRONMENTALLY-FRIENDLY MATERIAL

The Tailor Grace collections feature contemporary designs, wood and stone looks with useful properties including matte finish, sound reduction, indentation resistance and comfort underfoot.

ENVIRONMENT

Durable and beautiful, fully-recyclable Tailor Grace is Floorscore® certified, 100% phthalate-free resilient vinyl flooring manufactured with water based inks and no heavy metals in an ISO 9001 and 14001 certified facility. Tailor Grace does not require waxing, buffing or stripping, and maintenance requirements are simple and will not negatively impact indoor air quality, energy consumption or facility costs making it the optimal flooring for environments where hygiene and minimal downtime are priorities.

PANORAMA CUSTOM

Creating a unique design is simple. Select your colors, mix them up, see your design simulated in an actual setting and order a sample. Experiment with color using our online interactive floor designer program Mixology® at www.matsinc.com/mixology.

MATSINC.COM/MIXOLOGY

STEP 1 - Colored granules are measured out based on designer’s concept or custom matching to materials.
STEP 2 - Petri dish submitted for approval.
STEP 3 - Custom tile produced.

LARGE AND SMALL FLECKS
Minimum of 5% Black OR Small Fleck required
* Large Flecks Only
PROPEL TILE™

**FEATURES**
- Polypropylene fibers will not zipper like standard carpet
- Dimensionally stable; won’t shrink or curl
- Class 1 fire rating
- Common Uses—corporate, educational, hospitality, retail and fitness
