CleanZone™
It’s not just a mat. It’s a system.

A 30 foot matting system is recommended to remove 100% of dirt from shoes.

Zone 1: Exterior
Outside the entrance, choose an aggressive scraping product that is as maintenance-free as possible.

Zone 2: Vestibule
Between the exterior and interior doors, choose a product that scrapes off soil and absorbs moisture.

Zone 3: Lobby
In lobby areas, nylon fibers offer optimal performance for additional moisture absorption. Polypropylene fibers are ideal for applications requiring additional debris removal. Refer to the Mats Inc. Facilities Solutions binder.

Zone 4: Interior
For interior flooring, choose a style/performance combination best suited for the application. Refer to Division 9 resilient flooring binders for xcore connect™, Stateside™, wineo PURline®, Tailor Grace and Panorama.

Contact our Product Specialists at 1-800-MATS-INC (1-800-628-7462) with any questions. For the most up-to-date information on products, warranties and LEED, please visit our web site at www.matsinc.com.
Pro Track Series

Pro Track Series foot grilles are manufactured with heavy gauge aluminum using a high percentage of recycled content and engineered with exclusive, cross-bolt technology for extreme durability and long-lasting performance.

The foot grille blades scrape off dirt and debris from the soles of shoes, the particles drop through the surface and are then captured beneath. With the highest capacity for dirt and debris collection, the deep recessed system helps to keep the surface clean, reduce maintenance and protect interior flooring.

Pro Track Series foot grille panels and pre-assembled frames are manufactured to order so they are easy to install. The maximum size of a foot grille panel is 42" x 48" or approximately 16 sq. ft. for reliable durability and manageable one-person cleaning.

The foot grille blades scrape off dirt and debris from the soles of shoes, the particles drop through the surface and are then captured beneath.

Design Track

Deep Recessed System

Best system for heaviest traffic and rolling loads in zone 1. Outstanding scraping performance for entrances with multi-directional traffic in zone 1 or zone 2.

Legacy & Liberty Plank
Foot Grille in a Box

Ease of carpet tile installation with effectiveness of a foot grille. Minimal waste, reduce square footage cost by up to 50%.

Specifications
- **Material**: Polypropylene base with premium polyamide nylon fibers (6.6)
- **Backing**: Bitumen
- **Size**: 9.25" x 29.53"
- **Legacy Plank Weight**: 168 oz/sq yd
- **Liberty Plank Weight**: 236 oz/sq yd
- **Legacy Plank Thickness**: ± 1/2"
- **Liberty Plank Thickness**: ± 3/16"

Recommended Installation: Clip system with double-sided tape. Glue-down for heavy and wheeled traffic.

Specifications

**Design Track**

- Exclusive cross-bolt technology outlasts welded key-lock construction.
- Drop-through construction provides maintenance-free surface that holds dirt for years.
- Anti-slip surface: ADA compliant.
- Frames come pre-assembled.
- Custom shapes available (Advanced Track is recommended for radius cuts and receding doors).
- Beam Pan option available.

**Mighty Track**

- Exclusive cross-bolt technology outlasts welded key-lock construction.
- Alternating strips for scraping and drying.
- Drop-through construction provides maintenance-free surface that looks brand new for years.
- Anti-slip surface: ADA compliant.
- Frames come pre-assembled.
- Custom shapes available (Advanced Track and Dri Track can be cut to any angle, arc or shape).
- Beam Pan option available.

**Safe Track**

- Heavy gauge 6061-T6 aluminum with 69% pre-consumer and 20% post-consumer recycled content and mill finish.
- Custom made to your requirements. Consult our Product Specialists for assistance.
- Maximum Panel Size: 48" (front to back) x 4" (left to right).
- Multiple panels are used to construct the foot grille system.

**Array Track**

- Heavy gauge 6061-T6 aluminum with 43-57% pre-consumer and 20% post-consumer recycled content and mill finish.
- Custom made to your requirements. Consult our Product Specialists for assistance.
- Maximum Panel Size: 48" (front to back) x 4" (left to right).
- Multiple panels are used to construct the foot grille system.

**Ultra Track**

- Heavy gauge 6061-T6 aluminum with 51.84% recycled content, vinyl scraping rails and 100% nylon standard New York Collection inserts.
- Custom made to your requirements. Consult our Product Specialists for assistance.
- Maximum Panel Size: 48" (front to back) x 4" (left to right).
- Multiple panels are used to construct the foot grille system.

**Features**

- Heavy gauge 6061-T6 aluminum with 69% pre-consumer and 20% post-consumer recycled content and mill finish.
- Custom made to your requirements. Consult our Product Specialists for assistance.
- Maximum Panel Size: 48" (front to back) x 4" (left to right).
